

TOM LABOURDETTE

PROCUREMENT & SUPPLY CHAIN

PROFESSIONAL PROFILE

Supply Chain professional with experience in flow management, inventory control, and performance indicators. Proficient in WMS/TMS (Teliway) and reporting tools such as Power BI and advanced Excel. Certified Green Belt Management, I have implemented optimization plans, formalized processes, and developed dashboards to improve operational efficiency. I aim to leverage my analytical skills and organizational abilities to address your logistics challenges.

PROFESSIONAL EXPERIENCE

SUPPLY CHAIN MANAGER (WORK-STUDY) / LA POSTE, LOG'ISSIMO

La Poste PAU PPDC / Apprenticeship contract

09/2023 - 09/2026

- Ensured logistics traceability of incoming and outgoing truck and parcel flows
- Produced performance reports detailing scan rate, punctuality, and customer satisfaction
- Managed collection and delivery logistics operations for Log'issimo, including management of the local service for meal delivery and end customers
- Used the warehouse/transport management system (WMS/TMS) Teliway on a daily basis

VERSATILE VOLUNTEER AT FAMILY RANCH

K-Diamond-K Ranch, Republic, WA, USA / Volunteer work

11/2025

- English immersion: daily guest reception and client relations in English
- Versatility and adaptation to varied and demanding activities with a proactive mindset
- Active participation in daily ranch operations: guest house reception and management, kitchen assistance and catering

LOGISTICS AND OPERATIONS MANAGER

La Poste PAU PPDC / Intern

05/2023 - 07/2023

- Implementation of a business continuity plan to maintain logistics efficiency during site construction
- Development and formalization of operational processes
- Creation of reporting and dashboards in Excel / Power BI, optimization of complex files
- Integration of AI into optimization and automation projects
- Coordination with logistics teams and facilitation of information meetings

LOGISTICS ASSISTANT

Candia Lons / Intern

05/2022

- Improved communication, both with clients and internally, to foster smooth interaction.
- Team collaboration encouraging exchange and sharing of ideas.
- Implementation of an optimization/palletization plan to improve operational efficiency.
- Task organization by priority to meet deadlines and achieve set objectives.
- Collective work to achieve common goals.
- Initiative to optimize pallet wrapping film to reduce tearing risks during unloading, while integrating Corporate Social Responsibility (CSR) principles.
